Lady in Red

WOMEN'S WELLNESS

We listen to support **women** in all of life's stages

In today's high stress world, women of all ages are facing a host of special health needs and challenges.

Women's Health has become a dynamic, growing, and often unreliable field of wellness. Understanding this, **KL HeartCare's LADY IN RED package encompasses a preliminary imaging and analysis of your blood composition** which represents a state of the art approach to women's health and wellness.

This package provides the opportunity to have a initial representation of what is happening in your body, removing the concern, worries, stress and more that you have experienced from not knowing the answers.
